Project Name	EduGenie: Google Gemini Powered Learning Assistant
Maximum Marks	2 Marks

Customer Problem Statements:

The following problem statements describe the learning challenges faced by students, written from the student's point of view.

PS-1 – Difficulty Understanding and Clearing Doubts

I am	I am a student.
I'm trying to	I'm trying to understand difficult academic topics and clear my doubts.
But	But the explanations I find online are sometimes too technical or difficult for my level.
Because	Because most explanations are not personalized according to my understanding level.
Which makes me feel	Which makes me feel confused and less confident about the topic.

EduGenie Solution: Simple, student-friendly explanation using AI.

PS-2 – Difficulty Knowing What to Learn Next

I am	I am a student.
I'm trying to	I'm trying to learn a subject from the basics and gradually move to advanced topics.
But	But I don't know which topic I should learn first, what I should learn next, or how to plan my learning.
Because	Because learning resources are available in many places but are not always organized into a proper learning sequence.
Which makes me feel	Which makes me feel confused about where to start and how to continue my learning.

EduGenie Solution: Generate a personalized learning roadmap.

PS-3 – Difficulty Revising and Practicing

I am	I am a student.
I'm trying to	I'm trying to revise what I have studied and check whether I really understand it.
But	But going through long study materials again and creating practice questions takes a lot of time.
Because	Because important points are spread across the study material and I may not have ready-made questions for practice.
Which makes me feel	Which makes me feel unprepared and unsure about my understanding before exams.

EduGenie Solution: Generate concise revision points and personalized practice questions.
