Problem – Solution Fit Template:

The Problem-Solution Fit identifies the students' learning problems and checks whether EduGenie directly addresses those problems through simple, organized and personalized AI support.

Purpose:

- Solve students' learning difficulties in a way that fits their needs.
- Provide simple and personalized explanations using AI.
- Help students follow a clear learning sequence and revise effectively.
- Reduce confusion and time spent searching across multiple resources.
- Improve students' understanding, confidence and exam preparation.

Problem – Solution Fit Canvas:

1. CUSTOMER SEGMENT(S) College students who need help understanding subjects, clearing doubts, planning learning, revising and practicing.	6. CONSTRAINTS Explanations may be too technical; resources are scattered; learning paths may not be personalized; revision and question creation take time.	5. AVAILABLE SOLUTIONS Google search, YouTube videos, textbooks, college notes, educational websites and general AI tools.
2. JOBS-TO-BE-DONE / PROBLEMS Understand difficult topics, clear doubts, know what to learn next, revise important points and practice questions.	9. PROBLEM ROOT CAUSE Learning resources are not always simple, organized or personalized to the student's current understanding level.	7. BEHAVIOUR Students search multiple sources, watch videos, read notes and ask friends or teachers when they have doubts.
3. TRIGGERS Difficult topics, upcoming exams, doubts during self-study, scattered resources and difficulty planning learning. 4. EMOTIONS – BEFORE / AFTER Before: Confused, stressed and less confident. After: Clear, confident, organized and motivated.	10. YOUR SOLUTION EduGenie , powered by Google Gemini, gives simple explanations, personalized learning roadmaps, concise revision points and practice questions.	8. CHANNELS OF BEHAVIOUR Google, YouTube, educational websites, college notes, textbooks, messaging platforms and AI learning tools.

EduGenie – Core Solution: Simple explanations + personalized learning roadmap + revision points + practice questions.
