Empathy Map Canvas:

An empathy map captures what a user thinks, feels, hears, sees, says and does. For EduGenie, the user is a student who finds it hard to understand difficult topics, plan what to learn next, and revise with practice questions. The map below is built from the student's point of view and is based on the problem statements PS-1, PS-2 and PS-3.

User Persona: School / College Student using EduGenie to learn, plan and revise
